

We Invest in Your Child's Learning

Your child is offered the opportunity to enjoy preschool activities at our setting from FunShine Express®, a professionally designed monthly preschool curriculum for children ages 3 - 5! This monthly activity kit includes creative art materials, alphabet and language activities, music and movement, hands-on math and science, social activities, and games. These developmentally appropriate activities encompass all areas of your child's development, which is the best way to boost school readiness. FunShine Express® believes children learn best through interacting with their environment and they strive to present activities with that in mind.

Benefits of Professional Preschool Curriculum Materials

Builds School Readiness Skills

Each month, your child will participate in activities related to two educational themes. He or she will also be introduced to three alphabet letters, one color, two to three numbers, and one shape each month through a variety of engaging, hands-on activities.

Encourages Family Involvement

You will receive a copy of our Fireflies® Newsletter each month. This resource includes a few ideas to reinforce the monthly themes, letters, numbers, colors and shapes. It also includes a few songs, spanish words, a recipe, and some helpful web sites. You may wish to gather some of the suggested book titles to share with your child at home as well. More titles are available at funshineexpress.com.

FunShine Express® Program Goals:

- Each curriculum will be based on current research and sound educational theories of early childhood learning and development.
- We will provide a wide range of hands-on, interactive activities that allow children to use their unique learning styles to experiment and explore their surroundings.
- The activity suggestions provided in each monthly kit will stimulate creativity, build a positive self-image in each child, and address the needs of the whole child.
- The curriculum will encourage involvement of family members in each child's learning through literature and suggested activities.

A Love of Learning...

Preschool activities challenge children to be creative and set the stage for life-long learning. Appropriate activities can build self-esteem and enthusiasm.
